File No 152 of 1928

Serial No	
1	Letter no Roc 535/27-28 dated 4/10/28 from the Deputy Commr Hassan Dist forwarding for sanction a project for Rs 67000/- for water supply to the Holenarasipur town
1	The Deputy Commr states that the rest are agreeable to bear one half of the capital cost of the project and the annual maintenance charges which amount to Rs 3000, fully
2	The municipality request that in view of their slender resources they may be granted a loan of a sum equal to their quota of contribution payable for the work out of State funds subject to repayment of the same in long term easy instalments of Rs 1000 per annum at a low rate of interest.
3	The sanctioned budget estimate for the current year is put up The normal expenditure is a little above the normal income. and they have invested a sum of Rs 9401 in Post Savings Bank, Rs 3000 in Govt of Mysore Securities
4	The Dy Commr recommends that the proposal may be sanctioned

more must have taken steps for improving their finances by fresh taxation and now they are quite inconvenienced felt for want of good drinking water wells in the town

5 The financial Secty has to be consulted in the first instance The scheme 8/10/28 is based more or less on a mere expectation of possible income

K 8/10/28

6 The initial cost of the Scheme is Rs 67,000 The Munpty wants half of this amount to be met by Govt They agree to meet this other half but as they have no funds, they want a loan from Govt to meet their portion of the cost; the loan being paid in easy instalments of Rs 1,000 per annum at a cheap Rate of interest

7 In other words Govt have to finance the whole Scheme now and Recover half the cost from the Munpty in 33 years at Rs 1000 per annum

8 The Munpty agree to meet the full annual maintenance cost of Rs 3000 from the Municpl Funds The average Receipts and Expenditure of the Munpty are Rs 12,664 and Rs 11,528 Respectively. This leaves only a small margin

According to the scheme before Government the annual expenditure to be borne by the Municipality towards the maintenance of the water supply project and the interest and sinking fund charges of the loan will be about Rs 6 000/- as under -

(a)	Rs 3 000-0-0	maintenance charges
(b)	Rs 1 675-0-0	interest at 5% on the loan of Rs 33 500
(c)	Rs 1 340-0-0	annual instalments towards sinking fund for 25 years
Total	Rs 6 015-0-0	or roughly Rs 6 000/- in round figures

In this estimate interest accruing on the sinking fund contribution has not been calculated on the assumption that such interest will be credited to the Municipal Funds to provide the necessa

necessary margin in the expectations of revenue and expenditure

9 According to the sanctioned budget of the current year the normal revenue and expenditure are Rs 14635/- and Rs 15 613/- respectively In other words the present normal income falls short of the recurring expenditure by about Rs 1 000/-

10 In the budget proposals submitted by the Municipality the increase anticipated by the revision of the Octroi Bye-laws and the levy of tolls was Rs 1 250/- only

11 It is now stated that the Municipality expects an improvement of revenue to the extent of Rs 4 000/- from the several sources indicated in the Deputy Commissioner's report I am afraid this is too sanguine an estimate

12 The invested balance of the Municipality is Rs 12 400 only From an examination of the financial condition of the Municipality I do not think ~~that~~ it can find ways and means to meet the maintenance charges of the Water-supply scheme and also provide for the payment of interest and sinking fund charges The proposal of the Deputy Commissioner is not in my opinion a practicable proposition

From

S ABDUL WAJID Esquire B A
DEPUTY COMMISSIONER
HASSAN DISTRICT

To

Mr 152-28-1

R Ranga Rao, Esq , B A , B.L ,
Secretary to Government, General Departments,
B a n g a l o r e

Sir

I have the honour to forward herewith for favour of sanction of Government, a project for Rs67,000/- got up by the Executive Engineer, Sanitary and Town Planning Division, Bangalore, for water supply to the Holenarasipur Town, along with the vernacular correspondence ending with the Holenarasipur Municipal President's report No 59-28 dated 22nd September 1928 on the subject

2 This is a question referred to in the Dewan's Tour Notes of March 1927 From the report accompanying the estimate, it will be seen that the proposal is to arrange for water supply by means of pipes from the Hemavati river, which is close to the town The annual maintenance charges of the water supply project are estimated at Rs 3,000/- In view of the fact that considerable inconvenience is felt for want of good drinking water wells in the town, the Municipal Council are agreeable to bear one half of the capital cost of the project and the annual maintenance charges fully They request that the Government may be pleased to bear the other half of the cost and sanction the project In view of their present slender resources, they request also that they may be granted a loan of a sum equal to their quota of contribution payable for the work out of the State Funds subject to repayment of the same from in

in long term easy instalments, of Rs 1,000/- per annum at a cheap rate of interest

3 The normal receipts and expenditure of the unicipality were Rs 12,664/- and Ps 11,528/- respectively per annum on the average of the past five years (1923-24 to 1926-27) The Municipal Council have since taken steps to improve their finances by revising the octroi byelaws and framing market byelaws, and they expect an increase of revenue of Rs 2,500/- per annum from these two items They also propose to levy water cess and establish toll gate within the Municipal limits If these are sanctioned, they may have a further increase of revenue of Ps 1,500/- from each of these sources Thus, the Municipal Council, may be said to have ways and means to repay the loan of the capita cost and also to pay the maintenance charges of the project

4 In these circumstances, and in view of the fact th the water supply project is a necessity of the town, I strongly recommend the proposal of the Municipal Council, and request that the Government may be pleased to view the same sympathetically and accord sanction to the project and also to the grant of loan from State Funds to meet their quota of contribution towards the cost of the same on the terms proposed by them

I have the honour to be,

Sir,

Your most obedient servant,

R Ramachandra Rao

Deputy Commissioner,

Hassan District
